DECISION ON PETITION

This is a response to the Reply To Decision On Petition, received in the United States Patent and Trademark Office (USPTO) on December 13, 2004, which is being treated as a Request for Reconsideration Of Petition Decision. The deciding official in the Office of Patent Publications received the application file and the enclosed Reply To Decision On Petition (Reply) on May 23, 2005.

The request is **DENIED**.

Petitioner argues that the Decision on Petition of 2004 is incorrect October 10, 2003.

The decision to dismiss the petition received October 23, 2003 was based on the applicant's failure to satisfy the requirement under 37 CFR 1.8(b)(2) and (3) in that, (2) copies of the previously mailed correspondence did not include a certificate of mailing, and therefore, does not receive the benefits of 37 CFR 1.8, and (3) an attesting statement was not provided.

Patent rules under 37 CFR § 1.8 ii states in part: ... The correspondence includes a certificate for each piece of correspondence stating the date of deposit or transmission. See 37 CFR §1.8 Certificate of mailing or transmission

While the Office acknowledges a Certificate Of Mailing /Transmission (37 CFR 1.8a) on the Letter Accompanying Amendment After Allowance and the Amendment After Allowance copies were submitted with the petition received October 23, 2003 — they were not considered as acceptable under 37 CFR 1.8 because they were not properly executed in that a signature was not provided.

The holding of abandonment cannot be withdrawn as this time.

Although this petition for withdrawal of the holding of abandonment is being dismissed, other petition remedies are available for bringing about the withdrawal of the holding of abandonment.
